We work closely with our clients to understand their unique circumstances and provide bespoke recovery solutions tailored to their individual requirements.

This approach means we are trusted business partners to some of the biggest names in the finance, utilities, insurance and local authority sectors, with our highly experienced team of industry professionals working on our clients' behalf. To this end we can negotiate fees that are tailored to suit you and we can modify our processes to integrate with your internal workflows and procedures.

What our clients say:

"When we began referring cases to J&P Credit Solutions this was very much a case of dipping our toes in the litigation waters in a more structured way than before. The understanding between J&P and us has grown enormously in the past couple of years and this is without doubt a direct result of the significant assistance given by J&P."
